* Excludes Flight

Notes on Rankings:

- The Mid-Amateur rankings only include players who are 30 years of age on or before the commencement date of the first round of a tournament.
- The points run on a rolling year with the previous year shown as history and the current year as played from 1 January to 31 December.
- Two or more players sharing the same score will have the points for these positions added and then divided by the number of players sharing that position.
- If participating in a Provincial combined event (Open/Junior/Mid-Am) the Championship Division usually plays 54 holes and the other Silver Division 36 holes. A decision needs to be made before the tournament as to which 36 holes will count for the Mid-Am results and **MUST** be published in the Terms of Entry/Competition. **It is therefore crucial that the Championship & Silver Divisions play off the SAME TEES.**
- No points will be allocated for Provincial Match Play or any subsidiary events.
- If there is a cut, ranking points will only be awarded to players who make the cut.
